

Journey to Decarbonization

REACH YOUR SUSTAINABILITY GOALS

WWW.GEM-CONSULT.COM

STEP 01

Benchmarking & Supply Cost Management

- Quantify your energy spend and emissions
- Develop deregulated energy procurement and delivery tariff analysis strategies

STEP 02

Goal Setting & Sustainability Reporting

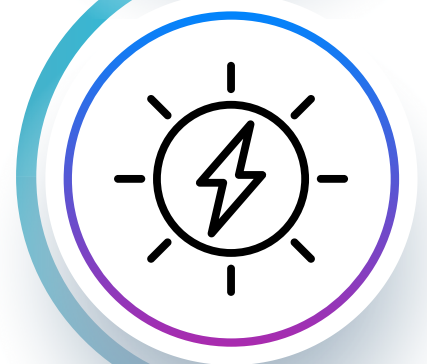

- Answer the question 'What CAN we do?' before 'What SHOULD we do?'
- Utility Bill pay processing
- GHG Emission Reporting
- SBTi goal setting

STEP 03

Energy Efficiency

- Capital or Financed?
- Rebate & Incentive + Project Management

STEP 04

Renewable Energy Sourcing

- Renewables Portfolio Roadmap
- Take a renewables risk assessment survey.
- Determine which products are best for your portfolio: on-site PPA vs. vPPA vs. community solar vs. microgrid + battery installation
